FORMAL TRANSFER OF SONOMA VALLEY BANK

Central Commercial and Savings Bank of Vallejo Takes Over Pioneer Banking Institution.

On Wednesday of this week the Central Commercial and Savings Bank of Vallejo formally took over all the stock in the Sonoma Valley Bank thus completing the transfer of this pioneer institution to the new owners. Announcement of the purchase of the controlling stock held by Frank and Jesse Burris was made some time ago. Other stockholders whose interests passed to Messrs. Harrier, Toomey, and their associates, were F. T. Duh-ring, Agnes Duhring Denny, Estate of P. H. Thompson, Sam Sebastiani, Robert A. Poppe, F. Clewe Estate, George P. McNear and the Estate of S. Cuicci.

The name of the bank is to be changed to the Central Commercial and Savings Bank, Sonoma Valley branch.

ENGAGEMENT ANNOUNCED AT DINNER PARTY

At a Thanksgiving dinner party given at the home of Mr. and Mrs. Stanley A. Robinson on Thanksgiving day the engagement was announced of Miss Alice Lawrence, of Berkeley, sister of Mrs. Robinson, and Robert L. Stanleigh of Sonoma.

Miss Lawrence has been a frequent visitor to the home of her relatives in Sonoma and while here met Mr. Stanleigh, for the past year foreman on the Sonoma Index-Tribune. The young lady resides with her mother in Berkeley, and is connected with the office of the comptroller of the University of California.

Her fiancé came to California from the East, where he was employed on some of the leading metropolitan newspapers. Sonoma friends of Mr. Stanleigh and his fiancée are extending hearty congratulations.

ARTHUR KUNDE AND PARTY MOTOR TO PASO ROBLES

Arthur Kunde of Wildwood Vineyards accompanied by his sister, Mrs. Behler and daughter, Irene, and Mr. and Mrs. Falk and son, motored to Paso Robles last Saturday in Kunde's Pierce-Arrow. They drove down via Salinas and made excellent time, stopping at interesting points along the route.

At Paso Robles they visited the famous hot springs and also the Kunde vineyard ranch near-by. This ranch acquired by the late Louis Kunde some time ago is a fine piece of property comprising 385 acres, whose value has been greatly enhanced by the striking of a crystal flow of artesian water on it.

Enroute home, Kunde drove his car over the Santa Cruz mountains and near Los Gatos, was surprised to discover his brake lining on fire. The odor of something burning was detected some time before and the party thought it was a truck which was trailing them on the grade. Investigation revealed the blaze under the big touring car which took vigorous application of dirt to smother.

Aside from this, the trip was made without mishap and greatly enjoyed. Miss Irene Behler wrote a diary of her trip and entered a lot of interesting data about every town passed.

Mrs. Louis Kunde is planning to move from the ranch into town, when her daughter goes to Windsor to take charge of the Kunde ranch there. Arthur Kunde will continue the management of the Wildwood Vineyards.

ALLEGED PERCIEFIELD ACCOMPLICE JAILED

Clifford A. Lee, alleged to be a partner of Pussyfoot Perciefield, who was arrested last week in connection with the theft of an automobile in Marin county, is in the county jail following his arrest by Deputy Sheriff Joe Ryan on a charge of burglary.

Lee was taken to jail in default of \$500 bail as set by Judge Joseph L. Small of the justice court in Sonoma. Lee is accused of having burglarized the Sonoma Feed Store a few months ago. He will have a hearing next week.

MISS PARKER WEDS OTTO DRESEL SUNDAY

Parker Home in EL Verano is the Scene of a Very Pretty Wedding Ceremony.

At high noon last Sunday, Rev. S. E. Crowe united in marriage Miss Helen Parker, daughter of Captain and Mrs. O. W. Parker of El Verano, to Otto Dresel, son of Mr. and Mrs. Carl Dresel, pioneer residents of the valley.

The home was prettily decorated in chrysanthemums and the immediate family of the contracting parties and a few intimate friends were present.

The bride, who is a winsome brunette, wore a rich gown of white Canton crepe, and instead of the customary veil chose a dainty wreath of orange blossoms. Her bridesmaid, Miss Anna Lou Dresel, sister of the groom, was becomingly gowned in cerise Georgette crepe. Both bride and bridesmaid carried bouquets. William Kennedy was best man and Mr. Parrish, a brother-in-law of the bride, gave her away.

Following the ceremony there was a delicious wedding breakfast served at the Parker home, Carl Dresel, father of the groom, presiding as toastmaster. After hearty felicitations and toasts, the newlyweds prepared for their auto trip to Shasta county, leaving amid a deluge of rice in Mr. Dresel's car, for the north.

The bride is a girl of fine education and many lovely traits of character. Since returning to California from the East, where the Parkers made their home for several years, she has made and renewed many friendships as many lovely gifts and congratulatory telegrams went to show.

The groom, Otto Dresel, is a college graduate and is a young man of many sterling qualities. He is associated with his father in the vineyard industry but will reside in town with his bride, the Cameron cottage on Chase avenue having been artistically furnished and made ready as the future home of the happy young couple.

WOULD ABANDON BUENA VISTA FARM

Acting Director of Institution Recommends Its Discontinuance on Several Grounds.

That the Buena Vista Castle property, acquired by the State of California for a farm for delinquent women may be abandoned, is the report coming from Sacramento. The scheme to reform women inmates is held to be impracticable, too expensive for the indifferent results accomplished, and a duplication of effort.

The Sonoma Valley site was purchased in 1920 for \$50,000 and comprises some of the most beautiful acreage in Northern California. The legislature has made several appropriations for its improvement and maintenance despite the fact that only a few inmates have been maintained there. A \$16,000 brick hospital has been erected. The women wander at large over the rambling estate, and escapes under the honor system have been common occurrences, giving local officers considerable concern. While designated to keep women out of jail, only recently two of the farm inmates were sent from there to the Sonoma county jail where they served 40 days.

Ever since its establishment here, there has been general criticism of the plan of the state selecting the most beautiful home property in all California as a reward for vice. Sonoma Valley sentiment is for the utilization of the property by California for other state purpose or its sale to the U. S. government as a home for disabled service men.

With the Feeble Minded Home located in Sonoma Valley and the Napa Insane Asylum only 12 miles distant, this section feels it has enough institutions of this character without the continuance of the new penal institution, known as the State Farm for Delinquent Women. It is regarded locally as an undesirable menace.

A Sacramento dispatch says: "What virtually amounts to a recommendation for the abandonment by California of the state prison farm for women in Sonoma county on the ground of impracticability and duplication of effort is contained in the first biennial report of the State department of institutions, which was filed this week with Governor Stephens by Edward G. Twogood, acting director of the department.

The report also recommends that wards of the State who are now being taken care of at Pacific colony in Los Angeles county, be transferred to the Sonoma State Home until such time may be worked out by the legislature for the institution.

FORECLOSE ON RESIDENCE TRACT

The Sonoma Valley Bank filed a suit against H. Harold Hunt et al on Monday to foreclose a mortgage given to secure a note dated December 5, 1921, for \$7000. The land involved is a number of lots in the city of Sonoma. Judgment is sought for \$6,932.14 with interest at 7 per cent from last June. J. R. Leppo represents the bank which asks for the appointment of a commissioner to sell the property and pay the debt.

Y. M. I. BALL BIG SUCCESS

The Thanksgiving eve ball given by Sonoma Council Y. M. I. was largely attended and netted a substantial sum for the St. Francis rebuilding fund.

A handsome American flag was the background for the five piece Agnetian orchestra, and the holiday crowd celebrated Thanksgiving's approach until 2 o'clock in the morning.

William Downey was the efficient and courteous floor manager.

FORMER SONOMANS DISPENSE HOSPITALITY

At San Mateo last Saturday, the California Press Association, headed by Governor-elect Friend W. Richardson, was entertained by the Three Cities Chamber of Commerce, whose leading committees were headed by Sam D. Merk and Mrs. Neal Haig, both former Sonoma Valley residents. Mr. Merk, former Schellville schoolmaster and now editor of the Burlingame Advance, was chairman of the Three Cities (San Mateo, Burlingame and Hillsborough) civic organizations. He arranged the entire entertainment program for the 200 or more guests and it was most successful from every point of view. Not only was the Governor-elect and his party treated most royally, but the advantage of the cities and county according to the hospitality was set forth in a manner calculated to show this locality's superiority over all other San Francisco suburbs and to emphasize its great future. Guests were met at San Mateo and were taken by auto through the beautiful residence section of the peninsula. They were shown its natural beauties, high grade schools, educational advantages, its churches, the moving picture industry at the Pacific Studios, its amusement park at Pacific City, etc. In addition the plan for the new \$8,000,000 transbay bridge to connect San Mateo and Alameda counties was set forth. Following the drive through the three cities, there was a luncheon at the San Mateo Woman's Club artistic home. One of the hostesses was Mrs. Neal Haig, president of the North Burlingame Community Club. This brilliant young club woman, now an acknowledged leader on the peninsula was formerly Emily Huddart of Agua Caliente. Mrs. Haig still owns her mountain ranch near that place and is deeply interested in the Valley of the Moon and its future.

Among those who partook of the Three Cities' hospitality Saturday were Mr. and Mrs. W. L. Murphy of the Sonoma Index-Tribune, who accompanied the editorial party to the intercollegiate football game at the Stanford stadium.

A Ford belonging to young Prindle of the old Graham place turned over three times on Riverside Drive Wednesday evening of this week. Too much speed, but no one hurt.

HOW TO OBTAIN FACTORIES FOR SONOMA

R. H. Neustadt of San Francisco Chamber of Commerce to Address Business Men's Association.

The secretary of the Sonoma Business Men's Association, Charles LaTorres, has sent out notification of a get-together dinner at the Plaza Restaurant Monday evening at 6:30 o'clock when R. H. Neustadt of the San Francisco Chamber of Commerce will speak. His theme will be "How Sonoma can Induce Factories to Locate Here."

Many reservations have been made and Harry Fine of the Plaza Restaurant will offer a tempting menu to supplement the interesting address of the speaker from San Francisco.

BEAN TOWN CHOIR MADE BIG HIT

The entertainment and bazaar given by the Congregational Ladies' Aid Society Friday night of last week featured The Bean Town Choir, one of the most delightfully humorous presentations ever given to a Sonoma audience. The directing manager, Mrs. Carrie Burlingame, was highly complimented on the show, while the players were all congratulated on their excellent character acting.

The scenery for the play was prepared by Muller & Downey, who donated their work to the Ladies' Aid.

Seating arrangements and the heating of the hall were both a credit to the management. The attendance was the largest yet recorded at a bazaar.

PORTION OF PLASTER AT HIGH SCHOOL CONDEMNED

Two rooms at the new high school building which had been plastered before the roof was on and were exposed too much to the elements had to be redone this week.

The architect, W. H. Weeks, and trustees and principal of the school went over the building this week, but this was the only work condemned.

Grand officers will be in Sonoma on Dec. 12th to organize the new council of Young Ladies' Institute. Already thirty prospective members have signed up.

No. of Bank, 77 COMBINED REPORT OF CONDITION OF THE SONOMA VALLEY BANK

At Sonoma, Cal., as of the close of business on the 15 day of September, 1922

EL VERANO NEWS

By ARCHIBALD McKIVER

M. Cox, El Verano contractor, is in Oakland, finishing up a contract.

Captain and Mrs. N. Nielsen were over Sunday visitors in the bay city.

W. Chester of San Francisco arrived in Sonoma Valley Tuesday and will remain several days on business.

W. Preston, formerly of Vineburg, has leased a place west of town and with his family have taken possession.

Billy Caulfield, Petaluma capitalist and stockman, has been in the Sonoma Valley looking over property interests.

Mrs. G. Stickel, mother of George Stickel of Sonoma, left on last Saturday morning for Canada, where she will visit relatives.

William Wyatt, Jr., has resigned his position with the S. P. Company at San Francisco and has returned to his home in West El Verano.

Mickey Reilly, internationally famous saxophone player, who has traveled all over the world, has accepted a position with the Tavern orchestra.

Bob Stanleigh of the Sonoma Index-Tribune arrived on an S. P. rattler Sunday evening after spending the week end in Berkeley and San Francisco.

Walter George and wife of Richmond were guests of Sonoma Valley friends Sunday. Walter is holding down a position with the oil company in that city.

Paul Vannucchi of San Francisco owner of Paul's Resort, Verano, has been at his place this week laying out improvements for the coming summer season.

Frank Bayol, formerly of El Verano, was here Sunday visiting friends. Frank is raising an eyebrow on his upper lip which is greatly becoming to our former native.

Mr. and Mrs. Joe Chelini, Mr. and Mrs. V. Chelini and Mr. and Mrs. M. Repetto, all of San Francisco, were guests at the A. Chelini home Sunday. The party motored up from the bay city.

Frank Kenny, pensioned San Francisco fireman, and who now has a position as watchman at the Moore &

Scott shipyard in Oakland, was a week end visitor at his country home on Riverside drive.

Austin O'Malley, gate keeper at the San Quentin prison, a brother of Father O'Malley, formerly a priest in Sonoma, is on his annual vacation in the Sonoma Valley. He is registered at Main's Resort, Verano.

Paul and Miss C. Verdier, after a most wonderful visit in San Francisco, returned to their home Sunday. Paul was kept busy visiting his many summer girl friends, who send greetings to their El Verano admirers.

Father Woodman, Paulist priest, of Berkeley, after spending several weeks in the Boyes Springs section, returned home on the S. P. Saturday morning. The famous priest is delighted with Sonoma Valley and says the climate and scenery is wonderful.

John Larson, the village fisherman, who inspired one of the writer's fair assistants to compose some verses on one of his fishing experiences, made it alone Sunday to Napa bridge. Fate was against the veteran angler, for he didn't get a strike. He is this week working on an invention which, he claims, will land any bass in the famous Napa river.

The new hotel at the Parente place in Verano is nearing completion and is fitted with all the latest and up-to-date improvements. This new summer resort hotel is now one of the best in Sonoma Valley and the proprietor, Louis Parente, is to be congratulated on the building of the new place, which will be opened to the public in the near future.

The Sonoma Vista Improvement Club held their annual dance, entertainment and turkey raffle last Saturday evening. Fine dance music from Oakland featured the entertainment. The hall was crowded and all report a wonderful time. Many fine birds were won and the Sonoma Vista people are to be congratulated on the evening's doings. Mayor Offerman made the address of welcome.

Duffy Lewis, manager of the Salt Lake ball club, who resides at Boyes Springs during the winter months, left Monday for Louisville, Ky., to attend the meeting of the National Association of Base Ball Clubs. Duffy needs some new stars in his line-up and will put over a couple of trades for players that will make his team a contender for the championship honors the coming season.

William Franklin, who, 55 years ago was a resident of Sonoma Valley, being born near Glen Ellen, has returned. Bill is now in the employ of a San Francisco real estate firm and has

IT'S TOASTED
one extra process
which gives a
delicious flavor

LUCKY
STRIKE
CIGARETTE

been sent to this place to act as caretaker of one of the ranches belonging to his firm. All the pioneers have gone since Franklin left the Valley of the Moon, but he is glad to be here once again and is surprised at the growth of El Verano.

Billy Kirby, manager of Main's Resort, Verano, last Monday had his Thanksgiving turkey stolen. Kirby Junior, who went to feed the bird, discovered his absence and reported to Kirby Senior that probably Santa Claus had taken it and would bring it back Thanksgiving evening, as he was a good fellow. As yet the bird is still missing. Paul Vannucchi reports his large gobbler also missing and swears vengeance on the thief if he is captured. Charles Champlin, our milk king, reports the loss of twenty turkeys, stolen from a fence on his ranch. Whoever the thief is, we wish him a happy Thanksgiving and hope that by Christmas he will be a guest at Sheriff John Boyes' hotel in Santa Rosa.

Norman Baines, engineer at the S. P. hospital in San Francisco, is spending the week with his folks here.

The turkey shoot given at El Verano last Sunday by Basileu & Dowdall was a grand success. A large crowd of sharpshooters congregated on the rifle range to win a bird. The main event of the day was a spirited shooting contest by Bloss Keechler and F. Norrbom. Keechler, who shot for the big plasterer, tied his own shot and the two gunmen shot the tie off for honors. Keechler, made nervous by the large crowd of spectators, stepped to mark, fired, and missed the target altogether. Then Ferd, who carries 240 pounds of real weight, took aim, and miraculously hit the target. Both boys shook hands, declaring the best man won. Keechler still claims he can outshoot the Sonoma heavyweight.

The decision of the State Railroad Board went into effect Monday over the S. P. system. The following new schedule went into effect at the local S. P. depot and our energetic agent, A. L. Gale, has the following hours to work: 7:15 to 7:35, 8:45 a. m. to 12:15 p. m., 1:15 to 4:45 and 6:45 to 7:15 p. m. This calls for an agent to meet all trains in and out of El Verano. Heretofore the depot has been closed on the arrival of the evening passenger train. This will also be convenient for patrons receiving express on the evening trains, which has up to the present time been carried to Santa Rosa and brought back the following morning. The S. P. Company believes in giving its patrons service, and, if undertaken properly, it is believed the public could persuade the company to restore the four trains daily over the Santa Rosa branch. Things are beginning to look bright in railroad circles and the boys are railroading now as they did in the good old days some years ago. The S. P. is gradually getting back to pre-war railroading and in time everything will be running along as smoothly and as good as ever.

RECIPE FOR CASH
AND CARRY HAM

If you have not tried cooking ham with milk you are missing a palate tickler. Get a thick slice of ham three-quarters of an inch in thickness. They know exactly how thick to cut it at the Cash and Carry Meat Market. Cover with flour, place in a deep pan and use sufficient milk to cover the ham. Bake for an hour or longer in a moderate oven. The milk and flour make delicious gravy and the ham is well cooked, juicy and palatable.—adv.

WHY FARMERS SHOULD JOIN FARM BUREAU

The Farm Bureau is an organization of farmers of the nation, state and counties.

The national organization is to help the farmers sell their produce at better prices, to help reduce expenses of shipping, to help create markets for their produce, to help bring the states together, to help each other and to eliminate big expenses.

Our state organization has helped the grain growers by organizing the California Farm Bureau Elevator Corporation to handle the grain crop in bulk, thereby doing away with the expensive sack system. It has fought for lower freight rates on farm products and a protective tariff on some leading farm products.

The county organization is divided into local centers. An advisor helps each center with its problems. It teaches the farmer the best and the cheapest method to increase his crops, kill harmful insects and tree diseases. It helps them to raise thoroughbred stock. It has in the last three years improved dairy conditions so the average cow gives 30 pounds more butterfat. They have controlled some of the poultry diseases. They have found a way to tell the laying hens from the bad, and conducted for two years a successful egg laying contest.

Are not these good reasons why you should join the Farm Bureau?

The above essay, written by Docia M. Main, age 11 years, a seventh grade pupil of Annapolis, was a prize winner in the contest put on by the Sonoma County Farm Bureau for elementary school pupils. The membership drive will begin December 4th.

Fred Bulotti, the Sonoma painter, is doing the painting and interior decorating at the Simmons drug store and it is a fine piece of work. The French gray tones used are in exceedingly good taste.

**More Care—
More Life**

Remember the old shoes you left out on the back porch—how they got stiff, misshapen and useless.

It's like that with a battery. If you neglect it you'll find that you've left the way open for a whole flock of troubles that shorten battery life.

Your battery doesn't need much attention, but it needs a little—and that regularly. The safe way is to let us care for it according to Willard Standards of Service.

Never mind the make. We look after all of 'em!

THE BLACK POINT CUT-OFF

The residents of that section of California living near the original gold fields of '49 are pleading for highways because of their historic importance and association. For a similar reason and with the added argument of Sonoma's importance as the cradle of California history, Sonoma still pleads for the completion of that piece of state highway known as the Black Point cut-off. Here in Sonoma, on the King's Highway, where the El Camino Real sign post is mute evidence of the pathway beaten to our doors by purposeful pioneers; here in Sonoma, where California was claimed by sturdy Americans and wrested from Mexican control, here state highway is denied us.

Several years ago the earnest pleading and argument of progressive citizens of Sonoma Valley for a highway was listened to after three counties had been interested in jointly financing the present route over the Black Point bridge.

Subsequently state bond issues resulted in piecemeal and spasmodic appropriations and attempts on the building of this road. It was plainly political expediency which prompted the work now and then on this highway so necessary to our future, so merited by our past. As a result, the Black Point highway is still uncompleted nor is there any appropriation for its completion to the Napa line. Contractors have this week completed one of the spasmodic contracts (made possible by the false hopes of Governor Stephens to get a few votes) to Fairville and there at this sheep pasture is the Black Point, really cut-off. An unparadise gap of several miles to the Napa county line where paved highway has been an actuality for some years past is the heritage of our taxpayers.

It is hoped that under the new gubernatorial regime this sort of highway treatment will not be tolerated and that communities of the historic importance of Sonoma will be recognized as deserving prompt aid.

Sonoma County has shown its desire to be in the ranks of foremost county road builders and our little City of Sonoma has "set its house in order" with paved streets, proving pride and progressiveness. When state highway building is taken out of politics, let us hope that the State of California will show enough interest in the town where the Bear Flag was raised in 1846 to see that its highways lead up to our historic gateway. Sonoma has a claim which is sure to be recognized when once state projects come to the attention of the right kind of men. We believe Friend W. Richardson will name a highway commission who will consider such pleas on their merit and that relief from

the shabby highway treatment Sonoma has received in the past will loom like the proverbial cloud's silvery lining.

THE CLAIMS OF OUR GRAPE SHIPPERS

The claims filed by grape shippers against the railroads for delay in getting the product of California's vineyards to Eastern markets should be promptly adjusted. There is a decided demand for these grapes in the East and the juice grapes of Sonoma and Napa counties particularly are to be obtained from no other section. With the exception of France, Italy and Germany, no section of the world can boast of the type of grapes which Sonoma and Napa counties can grow. Our vineyardists have had enough troubles thrust upon them after years of toil, without the railroads spoiling their chances to retrieve something from an industry hard hit by fanatical legislation. The grape growers have in the past been magnificent customers of the railroads, and are yet, so they are deserving of every consideration. California valleys and their prosperity depend in a great measure on the success of our vineyardists.

GRAPE GROWERS EXCHANGE URGES CO-OPERATION

The Grape Growers' Exchange has taken a stand for complete co-operation and a 100 per cent enrollment of members or it will disband, leaving the growers to be "sharked" by Eastern buyers next year. There is but little doubt that the salvation of the industry lies in perfect organization. The Association will do everything in its power to route wine grapes by water next year which will be just as quick a mode of transportation and will afford proper refrigeration all the way. Sonoma Valley growers are urged to co-operate. Flirting with independent buyers is too much of a gamble.

The song sung by certain Sonoma Valley resort owners after the woman prohibition agent's visit: "Sweet Bunch, of Daisy's."

The non-advertiser is a drone trying to do business at the expense that other merchants go to in order to bring business to town.

Patronize the advertiser. He is spending money to see our town grow.

Shop early!

TAXATION DISCUSSED AT RECENT MEETING

Scientific methods of assessments whereby large property holders, and raw land shall pay their proportionate share of the taxation of the county was the suggestion given the Sonoma County Taxpayers' Association at the annual meeting last Saturday afternoon by Abner Hitchcock, who was pressed into service as a speaker at the last minute when it was found that J. O. Davis of Oakland would be unable to speak as announced.

The present lack of scientific methods in assessing for taxation purposes Mr. Hitchcock held to be responsible for the greater part of the present day tax rates. He cited to prove his contention, the case of three places in this county as he took them from the assessment books earlier in the day.

One of about six acres, valued at \$8500, is assessed at \$900, while a second of about the same size and valued at only \$7400, is assessed at \$1600. The third, a ranch of six times the value of the two first mentioned is assessed at \$3200 or only a third proportionately as high.

Mr. Hitchcock contended in his remarks that if the large piece is assessed at the same proportionate value as the others, the owners of the two smaller pieces would pay less taxes. This, he added, would not be to the liking of the big holder, but would be justice and equity for all three.

The speaker called attention to the change of living conditions of today, the fact that people demand more things than formerly and that costs of everything is greater. The coming of autos caused an insistent demand for better roads and better roads cost more money. The result is naturally to have increased taxes.

With taxes amounting to \$2,660, 417.75 collected in the fiscal year 1920-21, who can place their finger on a single item of expenditure and say it is not necessary or that we can get along without it? Who can say the administration of the money has not been honest? What is needed is more

efficiency in administration and more scientific methods of taxation" he said.

The meeting was attended by less than 50 persons and the election of officers resulted in the re-election of L. C. Cnopius as president; T. J. Hutchison, vice president; B. M. Riedsma, secretary. The old directors will hold over, but a number of new ones were elected to fill vacancies, including L. M. Merideth, Santa Rosa; J. A. Ronshimer, Petaluma; A. H. Meeker and Mr. Whitney, Camp Meeker; Jas. Baines, Boyes Springs and W. P. Slusser, at large.

EL VERANO P-T. A.

The El Verano Parent-Teachers' Association will observe American Education Week Dec. 5th, at the El Verano school house, at 2:30 p. m. All members are urged to attend and all friends are invited.

Frank Ronicke, the well known carpenter, was accidentally struck by a truck from the DuBois ranch this week and though thrown to the ground, escaped injury. The accident happened near the Mission Creamery. Mrs. I. English will entertain the Flying Needles at her Sonoma Vista home on Wednesday.

THE CARE OF YOUR BATTERY

There recently appeared in the Chicago Daily News, an article by Erwin Greer, president of the Greer College of Automotive Engineering, under the title of Take Care of Your Battery, which George Leiser, of the local Willard Battery Station says "contains real battery information. The article says:

If you want to obtain low cost of battery service on your car you must do three things: You must have a standard battery, you must see that it is serviced properly and you must give it a certain amount of attention yourself.

If you consider the cost of a battery and the work it has to do you will readily realize that it needs exactly the care that you give the engine.

There are now on the market more than 100 different makes of storage batteries. Out of this number a good percentage are virtually worthless when compared with topnotch batteries made by responsible concerns.

If you need a battery, buy one made by a reputable firm. Once you possess a good battery the next thing to do is to give it the care it deserves. All you have to do is to add distilled water once each week in summer and once every two weeks in winter or at such intervals as found necessary to keep the cells filled to level.

Aside from this simple procedure see to it that the terminals are clean and tight and the battery as a unit is mounted solidly in place. If a white or green deposit appears on one of the terminals little or no current will flow into or out of the battery. Disconnect the terminal and scrape off the deposit, wipe the terminal dry and cover with a light coat of grease or vaseline.

Never add anything but distilled water. See to it that the generator charging rate is low or high enough to keep the battery up to charge.

Services will be held at Trinity church, Sonoma, next Sunday, Dec. 3rd, at 2:30 p. m., this being the first Sunday in Advent. Rev. William S. Short of Santa Rosa will officiate.

AGREES COUNTY HOSPITAL IS IN 'BAD' CONDITION

Dr. Fred O. Pryor, county health officer, in commenting on criticism leveled against the county hospital by Frank Wedekind, member of a grand jury investigating committee, says the conditions at the hospital are the same conditions, that he has been fighting and hoping to overcome for the past five years.

Dr. Pryor states:

"The hospital is not what it should be, and we have long recognized that fact, but an awakened public sentiment is the only agency through which conditions can be corrected. I do not believe the county supervisors are opposed to the idea of a new hospital, but they must be convinced by an expression of public sentiment that the people of the county want the necessary money spent for construction and maintenance of such an institution. Most of all we need a tubercular sanitarium, not for humanitarian reasons alone, but for plain business reasons. Tuberculosis is a preventable disease and we are not preventing it. For that reason we are not doing the right thing by the victims of the disease, their families or the public at large. I am quite sure that a false impression will be gained by the reference to the dirty rags. These rags were the remains of canvas awning which protected patients on the porch from hot sun and winter rains. We delayed getting new awnings for the reason that they were not really satisfactory and had in mind the use of wooden panels. It was finally decided, however, that the awnings would best serve our purpose, and they were ordered before the visit of the grand jury."

VINEBURG NEWS

Mrs. August Figone and family of San Francisco were the guests at the John Batto residence over the week end.

An elaborate dinner was served on Thanksgiving day at the home of Fred Batto. The guest of honor was Joseph Terpa, who holds a responsible position with the S. P. Company of the Summit, Placer county, a popular young society man of that place. Those present were Mr. and Mrs. Charles McDevitt and family, Mr. and Mrs. Al Groskopf, and Mrs. Fred Batto and family.

Our popular tonsorial artist, Frank Allen, is having the walks around his shop repaired.

Master Arthur Estment is the week end guest of relatives in Oakland.

Jim Small has returned to Vineburg and was exchanging greetings with friends on last Thursday.

Edmund Bacher is building a large brooder house and making many improvements at his poultry yard on the Hyde tract.

Fred Batto and son, accompanied by Charles McDevitt and Joseph Terpa, returned from the Summit on last Wednesday.

BLACK POINT CUT-OFF IS NOW OPEN TO PUBLIC

Word comes from McGill's service station that auto traffic is now passing over the Black Point cut-off without obstructions or turnbacks.

Two weeks ago announcement was made that the new road would be thrown open by the contractors, but travelers were turned back when they sought to go through.

The news that motorists can now go and come via Black Point will be welcome all along the line. Sonoma and Napa counties are hopeful that this road will be completely paved by the state before long.

HIGHWAY SLIDE DAMAGES ROAD

The failure to provide a bulkhead of any character or to grade back from the roadway for a sufficient distance to give support to the new fill along the Santa Rosa creek bank on the Schellville-Santa Rosa state highway opposite the Buckley place east of Santa Rosa, has resulted in the fill collapsing and sliding out for a distance of nearly 200 feet.

The roadway has slid out for nearly 100 feet while for another 100 feet the roadway is cracked, showing that the fill is giving way. The roadway will probably have to be rebuilt for some distance as a result of the slide. The fill, which has slid out, is nearly 10 feet deep for a portion of the distance and the embankment is almost perpendicular. Without anything to support it the earth naturally went out following the first heavy soaking followed by heavy traffic over the roadway.—Press Democrat.

CANNOT BE HERE FOR DEDICATION

Governor-elect Richardson regrets that important duties preliminary to his inauguration will make it impossible for him to be in Sonoma for the dedication of the new Sonoma Valley Union High School building.

Hon. Emmet Seawell or Will C. Wood, state superintendent of schools will now be invited to make the dedicatory address.

ALMOST PUT HIS FOOT IN IT

Visitor in Small Town Found He Had to Be Exceptionally Careful About Offending In-Laws.

There is a town in the Southwest where the families have intermarried to such an extent that it is difficult for an outsider to make the least criticism of one person without the danger of offending some family connection. When an unfortunate visitor commented on this fact to Mr. Jones, the postmaster, Mr. Jones nodded.

"Bill Perkins—that's our sheriff—complained of that no longer ago than last week," said he, according to the Philadelphia Ledger.

"You see, it took him more'n a week to arrest Frank because Frank got wind that he was wanted on a little matter of sellin' moonshine, and he went on a round of visits amongst his relatives, aunts, nephews-in-law and I don't know what all, and it wasn't till he had had his fill and went back home to his wife that Bill could make the arrest without seeming to kind of butt in, as you might say, and spoil the reunions."

"I should think he would make a strange sort of sheriff," said the visitor, "waiting all the time for sentimental reasons and then arresting a man when he went home, just because his wife wasn't a relation?"

Whereupon the postmaster drew himself up and assumed a remote expression.

"That's as you look at it," he said in a chilly tone. "I may be a bit prejudiced in Bill's favor, as he married my son-in-law's youngest sister. Anything that concerns him concerns me, you understand."

FRAGRANCE ON PRISON AIR

Electric Perfumer in Cleveland County Jail Arouses Mind to All Kinds of Possibilities.

Attar of roses and sweet scents of Araby! There's an electric perfumer at the county jail. It casts all kinds of sweetness on the prison air. Just turn the button and the jail becomes a garden of roses or fragrant with the scent of orange blossoms.

The other day the atmosphere of the jail reflected the aroma of the forest cedar. It might have been Norway pine, sassafras, crab apple blossom, but it just happened that the perfumer was charged to dispense an aroma tinged with forest cedar.

The machine has possibilities, the sheriff believes. It might be employed to awaken the prisoners each morning with scents of violets and soothe them at breakfast with odors of ham, eggs, corn fritters, grapefruit and other viands not on the regular morning menu of coffee and butterless bread.

Oh, yes, indeed, the machine has possibilities. At night it could discharge the odor of pineapple or figs or dates, and any prisoner with a good sense of smell and a strong imagination could readily go to sleep and feel that he was in Hawaii.

But the perfumer is in jail only on trial.—Cleveland Plain Dealer.

Little Density in Fog.

It takes a big block of fog to make one good swallow of water, says Dr. W. J. Humphreys of the United States weather bureau at Washington. The densest fog off Newfoundland banks contains some 20,000 droplets in a cubic inch, Doctor Wells and Doctor Thurais of the bureau of standards found.

To get one gulp of water enough fog to fill a space 3 by 5 by 100 feet would have to be condensed. In a fog that size there are 60,000,000,000,000 particles of water. "It would take about a half hour to count an inch of fog particles," says Doctor Humphreys. Placed side by side, 2,500 to 3,000 droplets would be needed to fill that length. The droplets in a cloud have been found to be, on the average, twice the size of a fog droplet.

Oil From Sunflower Seed.

The sunflower is a possible source of oil, a large quantity of it having been made from sunflower seed in Russia before the war. The cold-pressed oil is used for culinary and other purposes where a high-grade edible oil is required, while the hot-pressed is employed in making soaps and Russian varnishes. In 1911, more than 500 mills in the Caucasus were engaged in pressing sunflower seed. It is possible that the sunflower may some day be an important oil-producing plant in this country. The crop is now grown to quite an extent in some parts of the country, notably Missouri, for poultry feed.

Meteors Fall in Saskatchewan.

A giant meteor plunged into the Big Quill lake, near Wynward, Saskatchewan. A fiery body was seen by many in the district to drop from a clear sky and clouds of steam rose from the lake for some time after it had sunk in the water. Other meteoric disturbances are reported from Vancouver, Saskatchewan, southwest of Saskatoon. People in the neighborhood heard five or six loud explosions and the earth between Vancouver and Pike lake was shaken.—Montreal Gazette.

Huge Jellyfish.

A jellyfish of beautiful, translucent blue, weighing close to 60 pounds, was washed ashore on the south of England coast recently. The creature has seven odd-looking pink-hued tentacles protruding below the body of it and had two orifices resembling gills to breathe through. Some of us have vivid recollections of being stung badly by small ones and tremble to think what such a big fellow as this could do.—Exchange.

Miss Zolita Bates was among those known here, where Mr. Sims formerly from the Valley of the Moon who attended the football game at Stanford. Mr. and Mrs. R. M. Sims, well known here, where Mr. Sims formerly taught in the high school, spent Thanksgiving with the Carl Bundschus at Santa Rosa.

What Better Gift Than a Superior Model

CHEVROLET

Unequaled In Style, Value, Economy

1923 SUPERIOR LINE CHEVROLET FIVE PASSENGER TOURING

A glance at this Superior Touring Car shows why it stands in a quality class of its own—incomparable. Here is an automobile which anyone can be proud to own, because of its up-to-the-minute style, complete, modern engineering, and the lowest operating costs of any 5-passenger automobile made.

\$663

1923 SUPERIOR LINE CHEVROLET TWO-PASSENGER ROADSTER

All these advantages apply with added force to the Superior Roadster, which, due to reduced passenger capacity, develops still lower mileage costs. No need to waste space with fulsome selling arguments. The American public knows automobile values. The spontaneous demand for the remarkable cars will tax even our greatly enlarged productive facilities.

\$642

1923 SUPERIOR LINE CHEVROLET TWO-PASSENGER UTILITY COUPE

The Superior Utility Coupe is bound to surpass the magnificent sales record of its 1922 predecessor. This is the world's lowest priced quality closed car, and far outdistances all competition in single seat closed automobiles.

\$877

1923 SUPERIOR LINE CHEVROLET FIVE PASSENGER SEDAN

The Superior Sedan, like our preceding Sedan, is the outstanding world leader in the all-year type of family car. Chevrolet has led the automobile world in the pronounced shift to closed cars and our five passenger sedan has been the chief reason. At no time during 1922 after the first general distribution of the Sedan, were we able to keep pace with our orders. With this Superior Model, improved in design, construction and added equipment, an even greater demand is anticipated that will maintain our position of leadership in the production of closed cars with Fisher bodies.

\$1065

1923 SUPERIOR LINE CHEVROLET SEDANETTE

The Superior Sedanette is a new member of our line destined, we are confident, to achieve great popularity. It is designed especially for country club, social, shopping and general utility purposes, and as an extra car appealing especially to women. The trunk at rear is part of the regular equipment.

**CARS DROP OFF
ROAD INTO DITCH**

While Theodore Reibli and a companion were returning from Sonoma Valley Sunday night at 8 o'clock, Reibli's car was crowded off the road and dropped into a ditch a distance of 17 feet. The car was wedged in the creek in such a manner that the occupants could not get out. Their cries attracted a passing car and they were released, but not until the top of the machine had been broken.

Mr. Reibli incurred a severely cut hand and was bruised, while his com-

panion escaped injury. Fuller & Peters sent their wrecking car to the scene and after several hours removed the car from the ditch. It was badly damaged. Frank Peters used the new wrecking device, which was recently installed at their shop.

The autoist who crowded Reibli off the road did not stop to learn if he was injured.—Petaluma Courier.

**THE LURE OF THE
WESTERN FRUIT**

It is hardly possible to open a popular magazine of today without being attracted by a highly colored picture of fruits and fruit growing on the Pacific Coast, or the well written advertisement of a healthful climate, abundant water and desirable living conditions. The window of the land salesman indicates only the attractive side of fruit growing.

Is it any wonder that the overworked office man tired of the roar of city street, clash of elevator, and clatter of typewriter sells out his business, and leaves his home and changes his manner of living to become an independent fruit grower? No one tells him, when he sheds his white collar and creased trousers for blue shirt and patched pants, that fruit growing is a specialized business. The highly colored pictures, well written advertisements and attractive window displays tell nothing of the knowledge required to successfully produce marketable fruit.

The Division of Pomology of the University of California offers a week of instruction, Dec. 4th to 9th, in the growing of deciduous fruits. This instruction is a part of the farmers' short course given at the University Farm, at Davis. The work includes the essential practices for growing almonds, apples, apricots, cherries, pears, peaches, plums and prunes.

The lectures and practice periods will be under the direction of specialists who know the work and know how to teach it to others.

Particular attention will be given to the subjects of spraying, pollination and pruning. The week program is as follows:

Monday, Dec. 4th—
8 to 10:30—Registration.
10:30 to 12—Lecture and demonstration: Fruiting Habits of Trees and How They Grow.

1 to 2:30—Lecture: Principles of Pruning Young Trees.

2:30 to 4—Demonstration: Pruning Young Trees in Experimental Orchards.

Tuesday, Dec. 5th—
8 to 12—Lecture and demonstration: Pruning Young Trees in Experimental Orchards.

1 to 2:30—Lecture: Principles of Pruning Bearing Trees.

2:30 to 4—Demonstration: Pruning Young Trees in Experimental Orchards.

Wednesday, Dec. 6th—
8 to 10—Lecture and conference period: Diseases and Insect Pest Control.

10 to 12—Demonstration: Making and Mixing Sprays, and Spray Machinery.

1 to 4—Demonstration: Pruning Bearing Trees in Experimental Orchard.

Thursday, Dec. 8th—
8 to 10—General round table conference period.

10 to 12—Field demonstration: Irrigation Practices.

1 to 4—Pruning demonstrations: Almonds, Apricots, Peaches, near Winters.

Friday, Dec. 8th—
8 to 12—Demonstrations: Pruning Cherries, Plums and Other Trees near Vacaville.

Saturday, Dec. 9th—
Pruning Pear Trees in the Sacramento River Orchards.

The program will be followed throughout, as closely as possible.

One important and interesting feature of the course is the general round table conference period when growers special problems will be considered and discussed.

A fee of \$1 will be charged for the course at registration.

To help provide transportation to the orchards in the Winters, Vacaville and Sacramento river districts, growers are urged to bring their own cars.

\$50,000 DAMAGE SUIT

Charging gross negligence in the management of the Petaluma Co-Operative Mercantile Company, which is alleged to have resulted in a loss of business from \$800,000 a year to \$400,000, ten stockholders in the company filed suit last Saturday against the officers and directors for \$50,000 damages.

The suit also asks for the removal of the present officials and the appointment of a receiver.

The plaintiffs, represented by Attorneys Barnard and Booth are M. F. Heaney, Carl Mayfohr, Hans Enjuist, John Lundbolt, Charles P. Silva, S. P. Neilsen, P. Heil, John Sandstrom, Algot Sandstrom and John Moline. The suit is filed by these ten as stockholders and on behalf of other stockholders in like situation.

The defendants are G. P. Haskell,

as president and manager of the corporation; H. J. Shroeder, F. N. Dobbel, W. W. Freeman, W. Robbin and Karl Bundesen.

The stockholders are farmers and poultrymen who buy their supplies at the company's stores in Petaluma and Bellevue.

**WON PRIZE TURKEYS
AT MERVYN DANCE**

The Thanksgiving dance at the Mervyn Hotel, Glen Ellen, last Saturday, was a social success and every one who attended had a good time. The awarding of prizes for best fox trot artists and best waltzers caused keen interest. The judges finally decided the waltz in favor of Miss Fink and James Fallon and the fox trot in favor of Miss Ida Caccia and George Cavaglia.

NEW STORE FOR FETTERS

A new grocery and merchandise store is being opened up at Fetter's Springs by Mr. and Mrs. C. Brunkhurst. The store will be in charge of Mrs. Brunkhurst, who will make courtesy and low prices the rule of the new firm.

The Brunkhursts are Australians, and have been residents of Sonoma Valley for some time past.

WATMAUGH'S PROGRAM FOR THANKSGIVING

The following Thanksgiving program was given by the pupils of Watmaugh School on Friday, Nov. 24th, under the capable direction of the teacher, Mrs. Elizabeth Leshner:

Song—America.
Recitation—Elinor Jakober and Zolita Douglas.

Song—Landing of the Pilgrim Fathers.

Drama—Southwest Wind's Visit to Gluck. From King of the Golden River.

Historical Play—The Little Heroine of the Revolution.

The following cast of characters appeared in the South West Wind's Visit to Gluck:

Southwest Wind—Roy DeGrange.
Gluck—Italo Giubergia.
Schwartz—Byron Baker.
Hans—Randolph Avel.

The various characters in The Little Heroine of the Revolution were played by the following pupils:

Dorothy—Althea Douglas.
Mr. Arlington—Roy Werner.
Mrs. Arlington—Helena Sgheiza.
Pompey—Elmer Perry.
Chloe—Mrs. E. Leshner.
Mrs. Lee—Mary Mariana.
Patience Lee—Mary Matteri.
General Marion—Pearl Meeder.
American Soldiers—Americo Giubergia and Roy DeGrange.
Mr. Lee—Alfred Sgheiza.
British General—Henry Matteri.
British Soldiers—Herbert Randolph and Vernet Ryan.

WILCOX SAYS "NO PLACE LIKE SONOMA VALLEY"

Mr. and Mrs. S. H. Wilcox are enjoying a visit from their daughter and son-in-law, Mr. and Mrs. Fowler of Redlands, following an auto trip which they all took through Southern California and on to Yuma, Arizona. After Mr. Wilcox leased his ranch here to the McClesky family, he decided to take a vacation while he had the opportunity, so with his wife and family they started on the southern trip. The travelers were disappointed in lots of the country traversed, although they declare Yuma to be a very nice, up-to-date city and the lively trading center of a lot of territory.

After going through the Imperial Valley, a portion of Mexico and coming back to California, they were convinced that the Golden State and particularly this section are ideal.

Mrs. Ray Grinstead of Sacramento has been spending the Thanksgiving holiday with her parents, Colonel and Mrs. Robert A. Poppe.

DESCENDANT FORT ROSS FOUNDER IN AMERICA

One hundred and ten years ago Alexander Kushkov, captain in the services of the Russian czar, planted the imperial eagles upon the shores of Bodega Bay, but a few miles north of San Francisco, and established the first non-Spanish colony in California, the widest flung outpost of the Muscovite empire.

Recently Peter Alexandrovich Kushkov, grandson of the empire's pioneer and one-time colonel in the service of the last of the Romanoffs, arrived in California, a refugee from the Red waves of bolshevism which have inundated his homeland.

Colonel Kushkov said: "My great grandfather was among the pioneers who accompanied Alexander Baranoff, first governor of the Russian-American Company to Sitka, Alaska, when the northland was one of Russia's possessions. Following the imperialistic policy of that day and acting under the direct instructions of Nikolas Rezanoff, chamberlain of the czar, who was then in Alaska, he endeavored to colonize a portion of California in order that the Russian possessions in the Far North should have a source of supply for provisions which would not know in the Arctic climate. History tells us that my great grandfather made several trips in the vessel he commanded from Sitka to the California coast for exploration purposes before establishing the colony at Bodega Bay in 1812. While in 1840 the colony was abandoned and the lands sold to John A. Sutter, a California pioneer of Swiss extraction, nevertheless I understand that to this day the site of the settlement is known as Ross, a derivation of the original name of Fort Russ, as named by Alexander Kushkov."

The founding of the Russian colony in California has long been a part of the historical records of this state, but as far as is known, Colonel Kushkov is the first descendant of one of the original pioneers to return here, for when the land was sold while Mexico had sway, all the colonists returned to Alaska. When this territory was sold to the United States, the Russian flag was removed from this hemisphere.

"In our family records at Krusk we had letters from our great grandfather to his people at home telling of California, which he hoped eventually to see become a part of the Russian empire. And while many times I thought of visiting America I never expected to come here as a refugee," Colonel Kushkov said.—San Francisco Journal.

OFFICIAL TEST

51⁶/₁₀ Miles on a Gallon of Gas

THINK OF IT—SOUNDS IMPOSSIBLE. IT MEANS OVER 100 MILES ON TWO GALLONS OF GAS. THIS MILEAGE WAS RECENTLY MADE WITH A FORD CAR EQUIPPED WITH THE NEW 1922

Stromberg Carburetor and Hot Spot

THAT'S WHAT DID THE TRICK—THAT'S WHAT MADE THE GALLON OF GAS WORK OVERTIME. IT IS THE RESULT OF TWO YEARS OF EFFORT AND ACHIEVEMENT BY THE BEST CORPS OF CARBURETOR ENGINEERS IN THE COUNTRY.

Official World's Record Breaking Test With Ford Car

Made under the supervision of the American Automobile Association. An officially measured 1-gallon tank of ordinary 57 test gasoline was used and car driven over the Dixie Highway near Chicago. Car carried three passengers. Total weight of car and passengers was 2370 pounds.

With no change in carburetor adjustment car was throttled down to six miles per hour, then throttle was thrown wide open and a speed of 45 miles was reached. Car accelerated from standing start to 25 miles per hour in 11 4-5 seconds—from

10 miles to 30 miles in 15 seconds. This most remarkable performance is the sensation of the Automobile World.

You are wasting gas—stop—it's foolishness—it's like pouring it on the ground. Decide now—get more miles out of every gallon—get better acceleration, easier starting—you can do it with this marvelous Carburetor. Equip your Ford today—don't be satisfied with 15 miles on a gallon—get twice that—the money you save will soon pay for the carburetor. Twenty days free trial. New 1922 model complete. **\$15.75**

Chewing Gum Gave Him Away.

A job of chewing gum has disrupted a family. In a recent divorce case the wife, who was suing, testified that she was sure that her husband was unfaithful, but did not know for certain to which one of several charmers he was paying attention.

One morning she found a job of gum in the night before when he returned home late. In the lump of gum was the fatal red hair. She caused a watch to be placed on the woman who had locks to match the hair she found and discovered that her husband was a frequent visitor at the red-head's apartment and got a divorce in record time. Talk about your detective stories, what a plot!—Portland Oregonian.

Locomotive From Scrap Iron.

Working for eleven years, with a file as his only tool, a man in Buenos Ayres has made a miniature locomotive of scrap iron. The locomotive can be operated under its own power by the use of compressed air. The iron was not heated in the making, but was worked cold. A small coal tender and passenger coach were made at the same time and the whole thing is a little more than six feet in length and weighs 170 pounds. More than 1,300 screws and 2,000 rivets were used in the work. The train is complete to the last tiny detail and is built on the model of the equipment used on the British railroads of that country.

IMPORT BEADS BY BILLIONS

Demand for Those Ornaments by the Women of the United States Seems Insatiable.

Ballots and beads must belong together in the mind of the modern woman. At any rate, ten strings of beads are worn today when one was worn before the war and before the vote. Beads by the billions are being imported. This year's record promises to run far ahead of last year's, and last year's record was worth a glance.

To make any comment upon the advanced and emancipated woman's interest in the ornament that is usually set down as a South sea savage's notion of an all-but-complete costume is quite unnecessary. The figures speak for themselves.

From central Europe, from France, from the shores of the entire Mediterranean, from all Judea, from the three great countries of the Far East, the making of beads for the United States is a big business, declares a New York Sun writer. Not satisfied with the quantity that can be turned out with everybody working at the job of decorating the dresses and the hats and the shoes of millions of American women, the demand for something different has made the best dealers set the very South sea savage to scraping up the seashells from the shores of lonely isles that are all but lost on any average map.

To the national bill for tire materials could be added the cost of all imported cigarettes and then the total would be \$35,000,000 short of meeting the total outlay for feminine ornaments. In spite of the increase in the amount of coffee imported, the cup that cheers America at breakfast time costs far less than the beads that women wear. About \$66,000,000 less. The comedy continues throughout the whole list of life's lesser luxuries.

WOMEN IN VARIOUS TRADES

Fair Sex Has Traveled Far From What Was Considered Proper in the Victorian Era.

There are today in New York state 789 women in the building trades including women carpenters, electricians, house painters, glaziers, paper hangers, plasterers, plumbers, and even stone cutters. There are also women working as common laborers for the railroads.

We have had factory workers, to be sure, for long years, but in the past they have been chiefly employed as semi-skilled operators in clothing, textile and similar industries. Today, New York state boasts 2,610 in lumber and furniture work; 6,302 doing semi-skilled tasks in steel and iron and 3,217 working among the other metals; while 1,107 work in clay, stone or glass. The combined list of mill workers and skilled operators runs considerably more than 300,000 for the state.

Such tasks are not so anti-Victorian as quarrying, mining, stevedoring, of course, in which women are also engaged, but they are still a far cry from the kitchen stove, the parlor dust cloth and the nursery.—Florence Guy Woolston in the New Republic.

IN THE SUPERIOR COURT

Of the State of California, in and for the County of Sonoma.

Probate No. 7808, Dept. No. 2

CITATION

In the matter of the estate of SARAH V. KELSEY, deceased.

HENRY C. KELSEY, Plaintiff, vs. C. C. COWGILL, as executor of the last will and testament of Sarah V. Kelsey, deceased; BRUCE D. WEATHERHEAD and WALTER C. KELSEY, Defendants.

Proceedings to Invalidate Will and Probate Thereof.

The People of the State of California send greetings to:

C. C. Cowgill, as executor of the last will and testament of Sarah V. Kelsey, deceased; Bruce D. Weatherhead, Walter C. Kelsey and Henry C. Kelsey.

By order of this Court you are hereby cited and required to appear before this Court, at the Court Room thereof, in Department No. 2 at the City of Santa Rosa, County of Sonoma, State of California, on the 18th day of December, 1922, at ten o'clock in the forenoon of that day, then and there to show cause, if any you have why the probate of the will of Sarah V. Kelsey, deceased, which will is dated the 16th day of February, 1921, and was admitted to probate by said Superior Court on the 15th day of August, 1921, should not be revoked.

Witness:

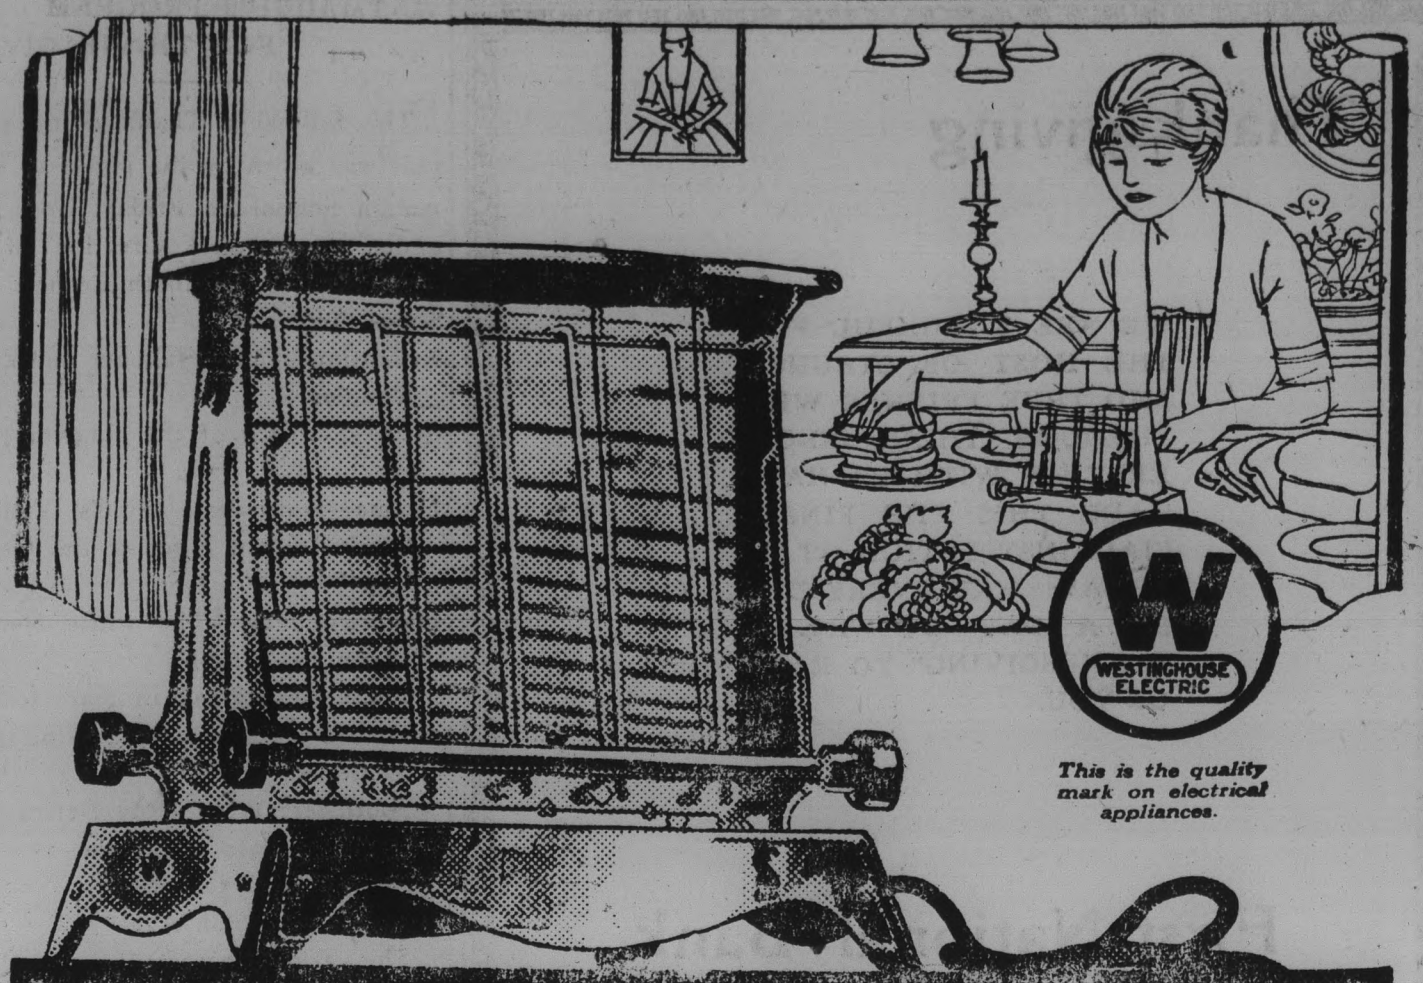

HON. EMMET SEAWELL, Judge of the Superior Court in and for the County of Sonoma, and the seal of said Court this 14th day of August 1922.

Attest, my hand and seal of said Court the day and year last above written.

(SEAL) W. W. FELT, JR., Clerk.

By CLARA E. CHRISTIANSEN, Deputy Clerk.

W. F. Cowan, O'Garra & DeMartini, Attorneys for Plaintiff, Santa Rosa, Calif.

Toast the Bread, Not Your Fingers

If you make toast in the oven or over an open flame you probably will scorch your fingers every time you make it. But the family enjoy toast and you like to give it to them.

Give it to them but make it on a

Westinghouse

Turnover Toaster. All you have to do is, put it on and take it off. The Turnover Toaster does the turning.

You ought to see how it works.
